SUMMARY

I am a Software Developer with hands-on experience in front-end and back-end technologies, honed through university projects and an ongoing internship at Apply Dreams. Proficient in building scalable web applications using ASP.NET, Angular, and MySQL, with expertise in RESTful APIs, MVC architecture, and Agile methodologies. Skilled at integrating database-driven solutions and optimizing performance, delivering seamless user experiences. Seeking to apply technical skills and innovative problem-solving in a dynamic Full-Stack Developer role to drive continuous growth and impactful solutions.

SKILLS

- **Front-End:** HTML, CSS, JavaScript, Bootstrap, Angular
- **Back-End:** C#, ASP.NET, ASP.NET Core Web API, Node.js
- **Tools:** Git, GitHub, MySQL, Postman, SQL, SQLite

PROJECTS

Ecommerce Website

📅 01/2024 - 05/2024

- Designed and developed an E-commerce web application using Open APIs for product data and integrations.
- Implemented advanced search and filtering features to enhance product discoverability and improve user experience.
- Applied best practices in API integration, security, and data handling to maintain system integrity.
- Utilized modern frameworks and tools (HTML, CSS, JavaScript, Angular) for scalable development.
- Developed modular, maintainable code and followed version control (Git) for collaborative work.
- Integrated user authentication and authorization to differentiate customer and admin access levels.

Personal Portfolio

📅 01/2023 - 04/2023

- Personal portfolio website to showcase my web development skills.
- A personal portfolio showcasing my skills in web development, along with detailed descriptions of key projects and achievements.
- Designed to offer a seamless user experience, featuring an interactive layout with a focus on my technical expertise.
- Built using HTML, CSS, Tailwind, and Angular, highlighting my projects, certifications, and personal growth.

Smart Quest Project

📅 01/2024 - 05/2024

- Web application project implemented using modern development practices.
- Developed and optimized web applications using Asp.Net Core Api, Angular, JavaScript, HTML, and CSS, ensuring responsive design and a seamless user experience. Using Entity framework for code-first approach.
- Designed and implemented database-driven web applications, leveraging SQL to manage and integrate complex data structures with backend systems.
- Utilized software development methodologies for efficient project management.

EXPERIENCE

Intern - ASP.NET & Angular

Apply Dreams

📅 06/2025 - Present 📍 Lahore, Pakistan

- Software development company focusing on ASP.NET and C# backend applications.
- Collaborated with senior developers to build and maintain web applications.
- Developed RESTful APIs and worked on backend functionality following MVC architecture.
- Integrated MySQL databases and optimized SQL queries for performance.
- Contributed to bug fixing, feature development, and testing of existing applications.
- Worked with Git for version control and followed Agile development practices.
- Participated in daily stand-ups and team code reviews to improve code quality.
- Gained hands-on experience.

EDUCATION

Bachelor Degree

University of Engineering and Technology

📅 08/2021 - 08/2025 📍 Lahore, Pakistan

Intermediate

Royal colleges

📅 03/2019 - 03/2021
